

PATENT

Atty. Dkt. No. NVDA/P001277

**REMARKS**

This amendment is supplementary to the amendment filed on January 9, 2006 in the subject application. In this supplementary amendment, two additional claims, 20 and 21, are submitted, emphasizing therein the features incorporated in the present invention whereby a voltage or voltage level detected on a designated pin at the connector indicates the presence of graphics update on a field changeable graphics card, in claim 20) and the presence of first or second voltage levels at the same pin indicates either that a graphics upgrade is provided on the graphics card or that no upgrade but a loop-through is presented on the graphics card.

In view of the art cited, and interview with the Examiner of January 7, it is respectfully submitted that these claims are clearly patentable, and such action is respectfully requested.

Respectfully submitted,

---
